TO THE INVESTING PUBLIC:

Owing to the unprecedented interest shown of late in the steel the now being manufactured by the Universal Metallic Tie company, many persons are calling on stockholders with the view of taking options on the stock held by them and jobbing the stock to the public. In doing so, methods are sometimes adopted which can only respect seriously on the officers of the company whose good faith and integrity is being made a matter of merchandise by unscrupulous persons. The public is cautioned to deal only with those gentlemen who bear certified authorization from the company, and bearing the seal thereof.

Public attention is directed to the merits of the tie.

SPLENDID SUPPLY OF VEGETABLES ON MARKET

There was a splendid supply of Utah vegetables and fruit offered on the local produce market Monday, but the demand for them was not very good. Utah strawberries are now quite plentiful and the price is becoming more reasonable. Cherries are coming in moderately, but there has been no important change in the price of the fruit.

Among the nice vegetables on the market Monday were lottuce, radishes, new points, new pointees and spinach. There was also a good supply of vegetables from the coast.
